27 February 1985

MEMORANDUM FOR: Director of Communications

25X1

FROM:

Chief, Management and Liaison Staff, OC

SUBJECT:

Weekly Staff Notes, 18 - 22 February 1985

25X1

~~SECRET~~

S E C R E T

SUBJECT: Weekly Staff Notes, 18 - 22 February 1985

6. The DDA Management Staff advised PPBG of plans to meet the week of 25 February for initial discussions on the transfer of DND-associated resources to OIT.

7. The Office has obligated, encumbered, or committed 51 percent of its total budget as compared to a one-twelfth annualized rate of 41 percent.

25X1 8. Two documents were received from the NCS for review and comments: (1) Draft NSEP Telecommunications Procedure Manual, and [redacted] Operations Concept.

9. Costing information from the OC Divisions for the remaining FY 1987-1991 New Communications Services is just about complete. Once the data is in and resolved, we will be developing the responses to the Directorates.

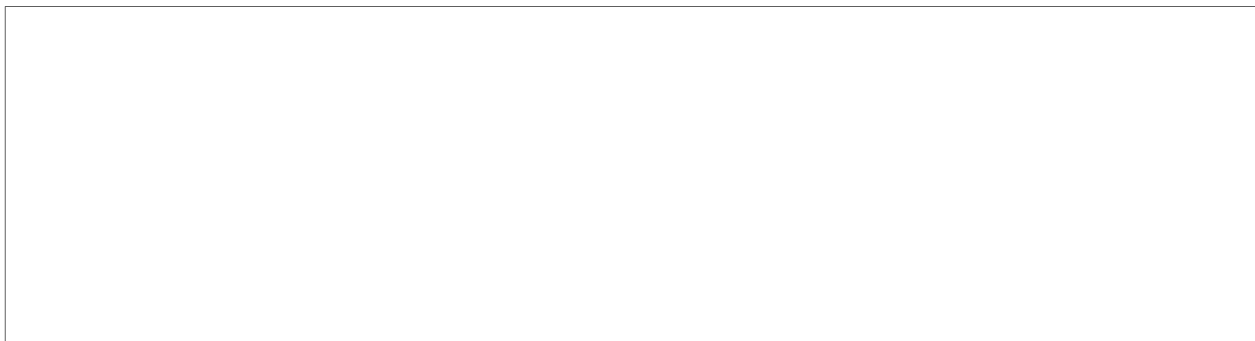

25X1 10. The National Security Telecommunications Advisory Committee (NSTAC) Industry Executive Subcommittee (IES) met at Mitre Corporation on 21 February. [redacted] attended this meeting to listen to the presentation by Mr. Ben Whitehouse, NCS, on Priority Initiation Restoration of NSEP Telecommunications (PIR).

25X1 12. RAG provided DCA MILSATCOM Office with preliminary requirements for UHF SATCOM Follow-on Space Segment (1992-2000). Data indicates we have need of a large number of channels (approximately 13 per footprint) if a MICRO-DAMA subsystem is not available. Refinement of our requirements in this area continues by separate action. Close tracking of DAMA developments with Navy and DCA has been established.
